Current as of: <input style="width: 150px; height: 20px;" type="text"/>	Current Total	Change since the last Periodic Report
Screened <i>Potential subjects that signed the consent form and underwent screening procedures.</i>		
Screen-failed <i>Screened subjects that did not fit eligibility criteria and were not enrolled in the study.</i>		
Enrolled <i>Screened subjects who met eligibility criteria.</i>		
Active <i>Subjects that were enrolled onto the study that are currently receiving study interventions or undergoing study visits.</i>		
Withdrawn <i>Enrolled subjects that chose to leave the study prior to completion of study interventions or were removed by the investigator prior to study completion for any reason (e.g. enrolled or active subjects that withdrew consent, subjects that were removed by the investigator due to safety concerns before all study procedures were completed).</i>		
In long-term follow-up <i>Varies according to the study design. It generally refers to enrolled subjects that completed all study visits and are no longer undergoing study interventions/procedures, but from whom data is still being collected for the study (e.g. for safety follow-up).</i>		
Completed protocol <i>Refers to enrolled subjects that completed the entire study and from whom no data is being collected.</i>
